Focus, Family, Freedom

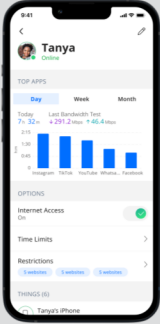

Whether you're a parent, professional or someone who simply wants their internet to function at the highest level, ExperienceIQ from [your brand] helps you to manage your home network with purpose.

ExperienceIQ® includes two powerful tools, My Priorities and Parental Controls, which allow you to manage your household devices and content directly from the CommandIQ® app. Make a change to your user, device, or network settings and see it go into effect immediately.

Handheld Control

Customize settings for your home and family members right from the [your brand] CommandIQ® app on your smartphone.

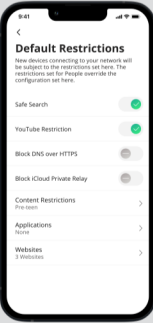

Custom Profiles

Create profiles for your family members and assign devices and usage limitations to each individual.

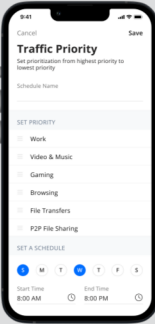

Filter and Safe Search

Block entire internet categories, apps and websites. Remove inappropriate and explicit content from users' search results.

Traffic Prioritization

Keep video calls from dropping and movies from buffering with device, activity, and schedule-based prioritization features.

Parental Controls

Internet access doesn't need to be one size fits all. With Parental Controls, you can customize online access based on user profiles you create for your family members. Create profiles for users to filter inappropriate content, block websites and categories, and set screen time limits with Parental Controls.

- Set screen time limits and bedtimes.
- Block entire categories, apps and websites.
- Remove inappropriate and/or explicit content for users

Establish a healthy technology balance in your home with intentional content decisions and enforced time limits.

My Priorities

Your internet needs change from moment to moment and so can your bandwidth distribution with My Priorities in ExperienceIQ. Eliminate distractions and disruptions by using My Priorities to give preference to devices and set schedules for work and play.

- Create a schedule so work needs such as video calls and large file sharing are prioritized on your network.
- Optimize bandwidth by device to keep family movie night buffer-free.
- Monitor the bandwidth you have available and send it where you need it most, when you need it most.

Remain confident that your connection is working for you and keeping you and your family safe.
