

July 2023 Cable Co-op Newsletter

Special Announcement

I am pleased to announce that the Cable Co-op Board of Trustees and myself (your GM) have decided to not increase prices this year for either television or internet. We have not increased rates since 2021.

As a nonprofit, member-owned entity we strive to keep costs low and maintain a members-first approach. Through the great efforts of the Board of Trustees and your GM, we are once again in a position to not have to raise rates.

Cable Co-op has started our FEN (Fiber Enriched Network) project. We are adding more fiber optics to our system. This will improve reliability and allow us to offer faster upload speeds.

**Cable Co-op has increased internet speeds again! (Check our website for details)
We have increased speeds six times since 2022 and have not increased rates since 2021!**

REMINDER

Our Advanced Wi-Fi comes with Global Award-winning protection, at no extra cost. If you have Wi-Fi, you need Cable Co-op's Advanced Wi-Fi! Best technology available, lifetime warranty, free installation, and cheaper than you can buy on your own! Change to our Advanced Wi-Fi and get the protection you need, the quality you deserve, and a price that fits your budget.
